**AMORIM**

**Sustainability is our ground.**

Being inspired by Nature  
is the beginning.

Amorim, the world market leader of flooring with cork incorporated, defines its mission as a continuous effort to add sustainable value to cork, and as a result, to preserve the cork oak forest in a unique example of green economy.

Aligned with those values and inspired by Nature, Amorim has been producing flooring with a promise to provide high quality and sustainable flooring products, ensuring a higher quality of life while preserving and protecting the environment.

AMORIM

# Amorim is Climate Positive.

With respect for nature and wellbeing on its core values, Amorim has reached a remarkable carbon negative footprint in its entire process, helping to reduce the Global Warming Potential.

## 01. Sustainable by heart

**Amorim floors are the purest outcome of a Circular Economy model that aims to turn waste and used cork stoppers into a valuable and sustainable product.**

### Environment

No trees are damaged or cut during harvesting; The cork oak forest retains 5x more CO<sub>2</sub> from the atmosphere helping to reduce Global Warming Potential (GWP).

### Economy

The cork oak forest creates jobs in the cork industry and in other related industries.

### Social Impact

The cork industry promotes settlement in areas at risk of desertification; Cork harvesting is an activity that crosses generations.

### Close distances

Factories are located within few kms from the forests.

### Reincorporation of waste

Any cork waste and surplus is collected, granulated and reincorporated in the production process, originating a lower carbon footprint.

### Biomass

The dust from the production lines is vacuumed and conducted to silos, where it is burned to generate energy through biomass. 65% of our energy comes from cork dust.

**02.**

## Green Production Process

**03.**

## Sustainable Products

### Indoor air quality

Amorim has several Indoor Air Quality certificates, that certify that no harmful particles are present in our flooring products living up to our promise to provide wellbeing in every room.

### Environmental Performance

Respect for nature is at the core of our existence, therefore making sure our processes and products respect the highest standards in environment protection is embedded in our culture.

### Sustainable Buildings

BREEAM

All of our products contribute with points to LEED and BREEAM certifications – the American and European certifications for sustainable construction and projects.

# From Nature, To Your Special Space.

By using a unique engineered multilayer structure, which combines state-of-the-art technology with the exclusive natural properties of cork, a higher standard in flooring is achieved, providing the perfect match between beauty, comfort and durability.

## Silence

Reduces the walking sound up to 53%.

## Impact Resistance

Highest shock absorbing performance.

### Indoor Air Quality

Compliance with the strictest indoor air quality standards after being tested on over 2000 potential chemicals.

### Natural Thermal Insulation

Optimal floor temperature all year round.

### Walking Comfort

Superior sense of comfort, even when walking barefoot.

# WISE

Cork  
Rigid  
Core

WISE by Amorim is a Climate Positive, non PVC product. With a carbon negative footprint, WISE is based on cork, a 100% sustainable material. The perfect match between your wellbeing and respect for nature.

**The Wisest choice.**

# Cork Rigid Core (CRC)

HRT - HIGH RESISTANCE TECHNOLOGY

# cork

## Technical solution

HRT NON PVC PROTECTIVE SURFACE

Class of use 33

NATURAL CORK VENEER

COMFORT +

Cork inlay

NON PVC CORK RIGID CORE

ANGLE /ANGLE INSTALLATION SYSTEM

COMFORT +

Integrated cork underlay

## Formats

1225 x 190 x 7mm  
48 15/64" x 7 31/64" x 9/32"

Floating

4 side micro bevel

## Finishing & Warranty

### HRT - HIGH RESISTANCE TECHNOLOGY

High elastic resin with nanoparticles, resulting on a natural and flexible surface with a superior wear resistance. HRT is micro scratch resistant, prevents color shading and provides a warm and pleasant feeling on touch. HRT is produced with environmentally sustainable materials.

The product samples images in this collection were cut from a larger piece. Decor and shade may vary slightly.

## Maintenance

# Optimal care for an everlasting beauty

To keep your floor spotless, Amorim has available a set of auxiliary products. Each of these has a specific purpose and is designed to make the caring of your floor as easy as possible.

### Regular Maintenance

#### Soft Cleaner

This mild detergent is appropriate for weekly or even daily cleaning. It can be used to remove dirt, stopping it from infiltrating in the joints and in the regular embossing of the product.

#### Spray Cleaner

Designed for regular cleaning, this mild detergent has the advantage of being a spray, which makes it a quick and easy solution to apply directly on the floor. It is very effective in cleaning dirt or grease stains.

## Skirtings

# The perfect match to make a pleasant interior

In order to help create a more classy and harmonious interior, Amorim provides skirting profiles to complement your floor. Create your ideal transition between the walls and the floor, whether by an exact match or contrasting colours.

Contact your supplier for information on the available skirting references.

# Technical data sheet

Walking noise	IHD-W431	dB %	Reduction improvement 18,5 dB Difference of loudness 65%	Reduction improvement 9,2 dB Difference of loudness 39%	Reduction improvement 18,5 dB Difference of loudness 65%

(a) Grade 5 - No change / Grade 4 - Slight change / Grade 3 - Moderate change / Grade 2 - Considerable change / Grade 1 - Strong change

(b) Group 3: Grade 4

TÜV-PROFICERT-product Interior brand is a voluntary, independent label for VOC-emission and quality of floorings. The results comply with the emission thresholds of AgBB, Belgian VOC regulation, Finnish M1 classification, BREEAM Exemplary Level, LEED v4 (outside North America), RAL-UZ 120 and Austrian Eco Label (Guideline UZ 56).

As of January 2012, France has adopted regulations that limit total VOC emissions of building products. Manufacturers, selling their products in France must obtain a classification ranging from A+ (very low emissions) to C (high emissions). The declared goal is to improve indoor air quality in private/ commercial buildings.

CE marking is a certification mark that indicates conformity with health, safety and environmental protection standards for products sold within the European Economic Area (EEA).

**Under Approval**

Greenguard Certification helps the identification of interior products and materials that have low chemical emissions, improving the quality of the air in which the products are used. It promotes global sustainability, environmental health, and safety.

**Under Approval**

The Blue Angel is a voluntary certification that guarantees that a product or service meets high standards when it comes to its environmental, health and performance characteristics. In the process, these products and services are always evaluated across their entire life cycle.

**Under Approval**

An Environmental Product Declaration is a verified document that reports environmental data of products based on life cycle assessment and other relevant information in accordance with the international standard ISO 14025.

**Under Approval**

In 2003 Japan has adopted regulations that limit formaldehyde emissions of buildings products, in order to improve indoor air quality. So that products can be sold in Japan, they must have the classification ranging from F4 stars (extremely low emissions) to F3 stars (low emissions), but in this case with some restrictions.
